New Classes – March/April

Stitches 2

Continue to explore the inner secrets of your machine. Many of those stitches you've fallen in love with look just as good (or better) done with a twin needle! Combine that twin needle with a cording foot, and Voilà! Pin tucks! Learn fancy hemming techniques - just like store bought clothing. See what you can do when you wind pearl cotton threads onto your bobbin and embroider from the "wrong" side (called "bobbin work"). The sky's the limit!

Becky's classes book quickly, so if you are interested in this class, don't wait for sign up. No previous Stitches class necessary to register for this one.

Curved Piecing Workshop

In this one-day workshop you will learn to make your own quilt templates and learn the tricks of curved piecing all while creating a single bird block. Once your block is created you can go on to turn it into whatever suits... a pillow, add more blocks and make a spring table runner, make still more blocks and turn it into a wonderfully happy quilt... or use it as I did to make a wall hanging...the choice is yours.

Thursday, March 29/ 9:30 - 3:00, 1/2 break for lunch

Class Level: Intermediate

Class Fee: \$40.00

Bear Paw

This very classic quilt will add a touch of cuddle to any home. It's 62" x 62" size is perfect for the sofa back and it can be done to suit any décor... I made mine very country, bright colors would add a dose of cheer... or for a more modern look you might choose grunge! The quilt features 16 different fabrics, one for each block (raid your stash) and it is set on point, using only one fabric for all the backgrounds makes the blocks appear to float. No need for a border on this one.
